Subject: Salls Document to Court

Thought I'd take a day off from ACBC doings but Carol saw something on ND and got me going.....
The attached document is posted on Karen Shaak's web site. I don't know if Jean actually sent it in to the court, but its at least up for people to read and full of misstatements.
I'm not sure of the best way to respond - looking for some input from Kurt. If actually received by judge Hancock I believe Chris Nye would have to be informed by the court.
There are also some other misstatements on ND, notably Karen "Gary" saying that no one on the Board has a deed with mention of the pool - I'm pretty sure Steve's does and I know there are other members at least on Keystone that do as well. Some folks who don't read all the actual data and may be undecided may read this garbage and believe it.
