**Subject:** Pool Committee Update

Just a quick update.

A week-and-a-half ago the board met with Stig Carlson, a local architect, and engaged Stig to begin the initial assessment study of the pool facilities building. At the same time, the board approved the initial funding for a pool inspector. The pool inspector, McKean ("Mick") met with Jean, Ed, Tim, Maria, and me this past Wednesday. We spent 2-3 hours with him, he took pictures, asked questions, we asked questions, Maria has since sent him some of the blueprints he requested.

McKean write up his initial findings and recommendations report within the next few weeks. One of the first steps will be to test the pipes. Tim has offered to work with the architect on the building, since he has experience in that arena. Sue is checking into UV filtering systems, talking to the Oak Harbor pool folks this week.

I will have a more detailed list of items to send this next week -- I'm having computer problems and need to get a new one, hopefully this week. Just wanted to let you know that we are emaking progress, now waiting for feedback from the architect and pool inspector.

Thanks,  
Cathie Harrison
