To just you and no others, please:

Well, I don't know if this is worth getting worked up over or not, but both the pool consultant's and Carlson's findings were to go through the two pool committees for consideration to develop into a recommendation for the board. This totally does an end run around the committees, usurping their charge, and totally ignores the mandates of the motion passed unanimously at the Oct annual meeting. Do we object or just let it go (it really ticks me off but not sure its worth more kerfuffle)?
 bob

Subject: Pool and Building Status

Good Morning -

An update regarding the pool and building:

Building: On Wednesday, Feb 27th, the architect, Stig Carlson, brought two consultants to walk through the pool facility (electrician and plumbing). We should get a 'first-phase' report sometime this next month.

Pool: McKean, the pool consultant, will be at the 2 PM Board Meeting this Saturday, March 9th, to discuss his findings and recommendations.

When we receive the written reports, they will be made available on the website. Thanks,

Cathie Harrison
