i would not say enclosing the pool because that could be maintenance. i would say adding hot tub and kiddie pool are possible enhancements for which we might vote but covering the pool might not require that if important to maintain it, stop vandalism etc.

emphasize the Board's neutrality and bad faith which the court found by the prior boards failure to discharge its clear duties. I have opined on this many times in many different ways so I am sure we can dig up some more commentary to buttress your summary
