Subject: Re: Pool Document Status

Good Morning -

The pool docs came from our pool consultant who has been working with us since January. He worked with others for the estimates, etc. Bob, you met Stig, the architect; he called in electrician and plumbing experts/consultants for those pieces of his reports. We have had both groups onsite at least twice, maybe three times, to walk-through the complex, take measurements, etc. Ed and Tim, Jean, Maria, and Karen also attended.

Maria and Karen are the pool maintenance committee, and Karen is long-term planning, working with the Reserve Studies folks to calculate the costs of maintaining the pool in the annual dues.

Cathie Harrison

Cathy,

Can you please provide the background on each of these attachments, the who and the how and the interrelations – it would help greatly...bob

Subject: Fwd: Pool Document Status

Good Morning -

I just received the pool docs this AM. Jean, will you please forward to the rest of the board?

The pool **building** doc is being forwarded separately - believe it's 28 pages.

These documents will be posted on the ACBC website after review this Thursday (7 PM meeting at the shelter). With both of these documents, we should be able to calculate the amount required for the special assessment for voting.

Thanks,

Cathie Harrison

Cathie:

Attached are our Submittal Documents for your use.

A big gray area is between the Pool Deck area around the pool and the Adjacent Dining / Lounging area which we have excluded.

We need to think about this area more. What is the average real Numbers of people using this area. The deck replacement around the pool Is quite expensive. I would consider reducing this area and Placing it in Planting and placing a New Divider fence in the planting area in the Dining area. This is just an Idea, but we need to think about this in relation to intensity of use By the community . I can help you with this. Hope your meeting goes well.

Have a great week:
McKean
