Subject: Deep-sixing the pool

Hi Ed,

You might start with Brad Johnson 678-7972 and/or Jamie Hartley 678-7811. Generally you will just get their message phone, which they may or may not respond to. The best way to get info is to just go to their office and ask to speak with them. It can involve a wait. But this is important. I think we're going to be looking at a shoreline development permit, and if so the removal requirements would be only guesses until such time as the state and feds have evaluated what they would require ACBC do.

If they validate that, it would be great info to have for Thursday's meeting. So good luck...Bob
