Yes Maria, it is good you clarified, and indeed we were at the same meeting.

When I said full agreement, I certainly was not speaking for the Board but about the committee members present at the meeting. I thought I was being clear on that, but in case I wasn't, let me then clarify I wasn't speaking for the Board, who could decide to disagree with this group and go totally in the opposite other direction. It never occurred to me that the committee members gathering today could displace the voice or veto power of the Board. I was referring only to the committee members in attendance, 3 of which are part of the 7-member board.

So, I agree, Maria, clarity is a good thing...Bob

Were we at the same meeting ?

No there was not an agreement, there is a request to bring to the BOD'S.

that is all.

To the Pool Committee (my takeaway, fyi)

Representing the Pool Committee at the strategy gathering on Sat were Bob Wilbur, Sue Corliss, and Fred Salmon. Representing the LR Planning Comm were Dan Jones, Suzie Palmer, Dustin Frederick, and Maria Chamberlain. We found it was hard to overcome old wounds, and there were moments of contentiousness, but we managed to get past those, find reason, and move forward.

There was full agreement that presenting a \$1500 one-time assessment on the ballot was a

losing option and should instead be displaced by a financing option, which will make the pool rehab more affordable for those who otherwise could not swing the \$1500 hit.

There was also concurrence, subject to Board okay, that Larry Salmon (and/or if schedule allows Bob Wilbur) will accompany members of the Board to investigate the options and hurdles related to financing.

And we all supported Dan Jones lead on a promotional brochure to inform folks of what a great pool we will have post refurbishment. Any ideas are welcome; send to Dan an cc the rest of us as it may place a good seed.
