Board Members:

I am very concerned about the pool in its current state, it is clearly an "attractive nuisance". It is in violation of state law and possibly Island County Health Dept. regulations.

Consequently, it is a clear liability for ACBC for which our insurance may not be willing to cover should an accident occur.

The board is fully aware of the safety requirements should the pool not be in operation and those requirements are not being met at this time---with full knowledge of the Board.

The Board can remedy this situation by filling the pool, maintaining the water quality and covering the pool with a suitable cover. This action will protect the clubs assets and reduce the ACBC liability for accidents.

I will be contacting Island County Health Dept. on Monday to determine if County rules and regulations are being currently violated. I suggest you contact the insurance broker and explain the current situation to determine your level of liability.

Dustin
