Hi Kay,

I wrote the below on Wednesday. Since then the pool has indeed opened. Barring unforeseen issues it will be open at least until the Labor Day week end and possibly a week or two into September weather permitting and attendance warranting.

Apologies for forgetting to send when written.

Ed.

The State Dept. of Health inspector was here on Monday and found a few minor issues - most significantly we had yet to turn on the hot water supply for the dressing rooms and since we're a "Limited Use Pool" this year we must have a self closing and self latching gate. Both these corrections are in place. (the self closing/latching gate may look a little "Rube Goldberg" but it works). The Island County Health Dept Official checked the pool Thursday and found all criteria to be within the legal limits.

As I write, the pool heater is not fully on line so the water temperature will probably be in the mid 70s F unless we have a lot of sun.

We hope to have the heater back on line by Saturday, but can't promise at this time. Since the pool bottom is rather coarse, we recommend that small children or any one expecting to have their feet on the pool bottom a lot wear some sign of clean protective foot wear. Hope your daughter has the opportunity to enjoy our pool.

Kind Regards,

Ed.
