Although I am a "lay" member on this board, in other words, "naive" This looks well thought out. All that is left is a final decision from Hancock, that's what everyone in the community is waiting for. This needs to happen ASAP or we are just fooling ourselves, wasting our energy... Those that can make it happen, then make it happen, we are all tired of wanting to be responsible. Been there done that.

Time to get some younger folks to take over.

So much work, with the reward of so much more work. As Steve put it, "Sigh"...

Fred
