Sounds like a good deal, but with tax it will be closer to \$70. Taxes are close to 40%. Never the less, a good deal and we can eventually get the line extended to the Shelter for internet there as well.

Hi all,

Steve and I met this AM and we signed up for DSL (Internet) service through Frontier (Order # 32416793) during this special offering and because of our problems with someone disturbing the pool hose and a need for us to record for security reasons. We can also use for a variety of other things.

So here's the scoop...

- \$49.98 plus tax/month (Should be about \$60/month)
- It's a bundled price with unlimited long distance, 3 way calling and caller ID.
- No installation fee if commit at this rate for 3 years, but nothing to sign. Can upgrade or revise plan at end of 3 years.
- Download/upload speed is 3/3 MB guaranteed...often running higher
- WiFi modem is provided by Frontier
- Can set up next Monday 4/28 - 8 am to 12 noon. Steve will be called to allow them entrance.
- Frontier has provided us with an email address. It is [acbcinc@frontier.com](mailto:acbcinc@frontier.com)

We hope this is okay and that you will agree. We were on hold for 30 + minutes and decided to go ahead because the cost for the additional service is the same as we pay now. This will be helpful for us to attach a camera that we can monitor on a home TV. I think we have to think about a camera that will record to review. Please see Kurt's email regarding camera type (GoPro).

Thanks,

Suzy

One quick option might be to purchase GoPro camera (inexpensive) and install it where it can see the area. It runs off of batteries and it won't have an internet connection but what it records can be downloaded. Whoever gets caught doing it should be charged criminally and arrested.

Sometime in the past 2 hours, the hose was pulled back onto the deck again and loosened at the hose bib as well. Any suggestions how to stop this nonsense?

**Subject:** Pool Issues, sabotage of our efforts?

I believe that the pool committee started filling the pool sometime Saturday.

Sunday afternoon, I walked over to see how it was going and found that the hose had been pulled back out of the pool onto the deck and its output was simply running across the deck and down a drain. Later, a neighbor asked if we were filling the pool because she heard water running when she walked her dog before church. This indicates that the water was going down the drain all day and perhaps overnight.

I rerouted the hose under the fence so it was less obvious and turned the water back on into the pool.

Two hours later, I checked back and the water had been turned off at the hydrant. Harry was with me. We turned the water back on again.

We're still operating properly this morning.

I wanted to make you aware that someone is tampering with our efforts and literally flushing our water and money down the drain. It really disturbs me that people are sabotaging our efforts.
