I would agree partly.

If we are requesting and edit, on this contract, I would like to suggest to add specifically, the ADA needs. "created a document than identifies deficiencies in the existing structure, and addresses ADA requirements" (something like that). We need to to have documentation from him, than list all of the deficiencies, in blank and white, (we all know than there are many, and it seems, there are as many opinions as well).

Maria

Hi All,

I've been out of email for a couple days, hence my delayed response.

Although ADA compliance is implied in the comment "create a document that identifies deficiencies in the existing structure" would it be wise to ask Stig to include ADA compliance in the wording of the document? Otherwise, looks good.

I agree, let's go ahead and authorize - with that small change if you all think advisable.

Kind Regards,

Ed.

Jean-

Attached is a proposal for the building evaluation on the pool house as we discussed at the board meeting last Wednesday. Please let me know if this meets your needs, I truly appreciate the opportunity to be involved with this project!

Best,

Stig
