All,

Keep in mind. The press never uses a press release as an article. They use it to fact check and take quips that are occasionally interesting. The Sound is kind of jumpy right now because they received a backlash from ACBC members about the club either missing 13k in donations or the papers' misprint of the facts. As such they are cautious. There is no mention yet of an article commitment.

I say it is ready to go in the mail. No desperate it is factual.  
Agree the information about the the loan is what is scaring the memebership.

To the press !

Hi All,

I received another inquiry from Sound Press.

Suzy called and feels the release sounds 'desperate' and asked it not be sent. We cannot be silent on this issue, it is our responsibility to respond.

I will remove the city limits notation, I can add more info about a loan but am reluctant to hit that too hard. No member has contacted me personally or via the website asking us to pursue a loan. Nine members have spoken out against it and then there is the Nextdoor stuff.

So, last chance for constructive input. I need to respond today.

Most informative, I like to suggest the insertion of Suzie'd clarification, "than a Loan will be consider only with the general membership approval"

( am I missing it ? ) sense that seems to be why they're must concern.
