Third paragraph – first line – *Say what:*

The pool was built by the original developers of the Cove and over the years **and pool building** has **come into disrepair because of years of financial procrastination..**

Same paragraph, second sentence – Effort or *efforts*? Director or *Directors*? Repair and upgrade or *repairs and upgrades*?

Dues at 69 – 75 level??? It's gone up 3 times since I've been here. Meaning of the rest of the sentence is unclear to me as well.

Building surrounds pool???

That's as far as I went. The original worked for me.

Subject: Re: news release regarding pool vote

Hi All,

See what you think of this redo. I think it is factual and yet builds a more positive picture of Admiral's Cove Beach Club. I worry real estate folks will only remember the struggle and not the fact that our community can pull together to make a decision. It's an opportunity that is given to us to paint a picture.

Let me know what you think.

Hi All,

I received another inquiry from Sound Press.

Suzy called and feels the release sounds 'desperate' and asked it not be sent. We cannot be silent on this issue, it is our responsibility to respond.

I will remove the city limits notation, I can add more info about a loan but am reluctant to hit that too hard. No member has contacted me personally or via the website asking us to pursue a loan. Nine members have spoken out against it and then there is the Nextdoor stuff.

So, last chance for constructive input. I need to respond today.

Karen

Most informative, I like to suggest the insertion of Suzie'd clarification, "than a Loan will be consider only with the general membership approval"

(am I missing it ?) sense that seems to be why they're must concern.
