Hi Sue,

We've checked with all the people working at the pool as well as the daily log and confirmed that no one allowed people to swim on Sid Iverson's say so. Most of the folks working at the pool didn't know who Sid was when asked and all were well aware that he's not on the Board and would have no authority to authorize pool use by anyone but a guest of his with him present. For that matter, no Board member can authorize anyone not a member in good standing to swim other than a guest of theirs who of course can not be a member not in good standing.

Kind Regards,

Ed.
