Maria is interfering with board members, volunteers and contractors.

She has followed, argued with, taken pictures and note with Bob Wilbur, this contractor, Ed, and others.

Is there some reasonable way to put her on notice to not interfere?

Subject: Re: Safety of the Pool

I'm not aware of what a secondary drain entrapment system is? I asked him if there was a way to put a valve in the system to make it easier to prime the system with a hose. There was no request... Based on what he said that might be required, we ended the discussion.

The plumber also advised me of Maria's following him around, asking questions, and taking notes. He realized that it was a fishing expedition and that he needed to stop talking with her and get back to work.

No modifications were done and none are planned without pool experts. Ed and I also talked about this.

As mentioned in our meeting yesterday, I am meeting with the Health Dept at 1 PM for those that would like to join me.

Subject: Safety of the Pool

Kurt:

I am sending you this Email, with the hope to reach your legal understanding of "The safety concerns of the POOL". When you attended the May BOD'S meeting, I pleaded to you, to make sure to inform your fellow BOD'S, of the great importance of making sure everything is run following all legal steps.

It is not happening, Kurt, Tuesday afternoon, after the coffee hr, I spoked with the Plumber than was de-winterizing the pool. I asked him if he was doing any work on the Secondary drain entrapment, system, than is being bypass, he STATED THAN HE WAS ASKED, BY THE INDIVIDUAL THAN HIRED HIM, TO DO RE-PLUMBING, to get the secondary entrapment working, but he has refused, because it is against CODE.

Kurt, how are we going to prevent illegal processes taking place, how are we going to prevent this individual Board member, from seeking an unethical Plumber, than will do the work, and place our members and their children in danger ??

How do you proposed to stop this none sense. ??

Maria Chamberlain
