Hi guys...

Nate and I are just about ready to leave for Lopez Island for the Model A rally...old cars and old goats. :>)) I am available on my cell phone and I'll have some computer access. Very encouraging report today from Harry and Alex. Apparently, if there is a leak, it is a slow or small one. We have lost a small amount of water...could be evaporation because Trina intimidated me into letting her take the cover off. Alex thinks the heater can be fixed. He was very concerned about the poor job someone did attempting to repair it. Ed, you should probably talk to Alex or Harry about it...I understand very little. Northwest Spa may be the culprit. I dropped off the mail for Steve last night so we are caught up here. I will check the mailbox when I get back on Sunday. Ed, if you are driving please have a safe journey home. We (I) have missed you and Carol!

So it looks as if we are getting closer to a decision about this summer...I think cost is the main issue; whether it's for fixing the heater or covering the pool for the summer. We also need to think about getting a Limited Use Permit.

Call if there is anything.

Suzy
