Hi Ed,,

I don't think the filters need cleaning. They are new with only about a month of run time on them, when I took them out in 2013 I did clean them well, and Jean Salls took them home and soaked them with some special soap.

the dirt on the filters would be from me vacuuming recently. I did take that last canister apart to fix the ring, it didn't look bad. soooooo, I don't know. I hope that was helpful.

I am finding large black bags of garbage around the outside of the pool,, I don't know where they are coming from, but todays bags seem to weigh over 50lbs each, if the clean up committee is leaving them behind, could you ask them not to make them that heavy? I just about broke my self in 2 getting them in the dumpster.

Thanks

Trina

Hi Trina,

Fred & I replaced the pump shaft seal and found it made no difference. When I talked with the pool fellow from New Concepts in Bellingham he asked if the filters were clean. I replied the last time I saw the system running about two weeks ago the gauges were well in the "clean" zone. He'll be coming to the pool next week, probably Tuesday to check the system out. Do you think there's any chance the filters may need cleaning?

I'll be away again starting tomorrow afternoon until around July 23. As before, Fred Salmon will be taking care of functional pool issues, getting the pool professionals in as needed. Suzy Palmer and my wife Carol will be leading the volunteer work fixing all the issues other than the pool system issues.

We'll get more tabs ordered today.

Thanks for the up date.

Ed.

Hi Ed..

I hope you are fairing well in this heat... I love hot..

I was hoping for an update on the filter/pump and any idea when it will be up and running..?

Also I am out of Chlorine down there..

I did shock the pool but was not really affective since the filter wasn't running.. There is not much I can do about the appearance until its running, and I am really embarrassed about that.

Also, I wanted to warn you that I am in a summer class I had no idea that would be so very time intensive, just about 40 hours a week, that will last until Aug. 1. so if it seems like I disappeared... I did,, I will do my best to be available to ACBC. I still have weekends free, just let me know what is going on and when you need me.

Sorry for the inconvenience.

have a very blessed day..

Trina
